

stupid bagger. It makes me feel so bad but except this Castellon was very pleasant place to be and every officer in ORI was very nice.

dades solo orientadas a personas que venian con un programa de intercambio internacional. Si pudiera, repetiria sin dudar!

ade which is not enough to prepare for exams). Third, I was dissatisfied about the policy and the content of Spanish course. I took semi-intensive course in B1 level in the 1 semester. I felt gravely there is no progress of the content from one topic to another. Neither was I satisfied the policy of it such as no refundment, no syllabus, no change to the another level of class once the course begins. On the contrary, I got greatly positive impression about the problem solving and helpfulness by the member of ORI.

helpful, not only for organisatory things and contracts but also as tandem partner and friend. My academic tutor was nice but a little bit chaotic and did not really know how to help me. We did not get any information about the prices and food opportunities at the UII.

en once. With courses it is so annoying with Valenciano, and especially if it is said that the course is in english/Spanish and then it's in Valenciano... Also some of the pages are not in Spanish (in english even fewer) but only in Valenciano. Overall I'm very happy that I came to Castellon, I think I learned a lot. I think the UII overall is very nice and Castellon has a good location. Also the Spanish people are so open and always helping. Muchas gracias por todo!
